Narrowly Averted
at the Funeral

Of One Victim

of the Strike Troubles
in Albany.Crowd Became Frantic at
the Appearance of One
of the Soldiers.The Latter Ran from the Scene and
Escaped Without Harm—Street
Cars Running in the City
Again.

Albany, May 20.—The incidents the day of active operations of all railway lines affected by the great strike were few because of the heavy rain. The two men shot by national guardsmen in defense of property were buried, but the rain kept away thousands of persons that otherwise would have attended the services.

The departure of the Twenty-third regiment was the second feature of the day, and stirring sermons in many pulpits closed the incident.

The funeral of Leroy Smith was of incident except that it was attended by city officials and directed by the street railway people.

The funeral of William Walsh was nearly a riot. While the services were proceeding in the church the crowd that had been unadmitted to gain admission saw a uniformed soldier coming down the street. Instantly the people were in a state of ferment. A rush was made to the unlucky soldier, but a few heads held the crowd back for a moment, while several others advised him to run. He did run and trouble was avoided.

The starting of the first car of the day line was the cause of a demonstration. Pistols were fired, flags and torpedoes were placed on the car, and exploded, the motorman conducted were flags on their cars, and fully 200 men and women gathered for the privilege of the first car.

When the conductor got the car and rang up the fares he had had 73 passengers, where 50 is a crowd. Within an hour any cars were running that the city deterred people from riding the sake of novelty.

Issues at Youngstown.

Youngstown, O., May 20.—The differences between the roll-turners and the Republic Iron and Steel any may soon be settled. It is said that the Republic company is to recognize the union and the scale agreed upon with certain changes already agreed to. It is said that the steel hoop company is to pay more than the scale, and will not recognize the union. The American Federation of Labor insists, however, that signing the scale is the presented. General Superintendent of the steel hoop company came to New York to present the case to the officials of the company.

Appeal to the President.

San Francisco, May 20.—A lengthy letter emanating from the San Francisco labor council has been presented to President McKinley. It is the present differences between employers and employees to the possibility of congress not taking any action reference to the furtherance of the exclusion law now in the policy of territorial expansion and the request is that with the acquisition of outlands the doctrine of exclusion should be enforced.

DANGEROUS DERELICTS.

Floating Menaces to the Safety of
Those Who Cross the Ocean.

New York, May 20.—Two large ocean liners, L'Aquitaine from Havre and Mesaba from London, report that in crossing the ocean they passed dangerous derelicts which, if met in the night time, could not have been observed by the lookouts and would certainly have resulted in disaster. These wrecks are drifting with the wind and water in the ocean lanes which are being daily traversed by the liners, many of which are carrying on a voyage 1,000 immigrants in their staterooms.

Three other liners which arrived here during the last few days have reported passing dangerous water-logged schooners and wreckage in the westbound ocean lanes.

As observations were taken at the time of the sighting of the wrecks, the government will be asked to send out a gunboat to hunt for and destroy the derelicts before they cause disaster to vessels.

General Grant's Views.

San Francisco, May 20.—Brigadier General Grant, who returned from Manila on the Sheridan, speaking of the condition in the Philippines, said: "Everything is settling down and we are getting at the real work of governing and teaching the people. Their peculiar national character makes them hard subjects for the present. You must remember that they were originally pirates; that their civilization is of the fourteenth, not of the twentieth century, and tendency to brigandage is so bright among them that it amounts to a disease. In many districts the paying of tribute to robbers is considered the regular thing, no more out of the way than taxes."

Jewish Publication Society.

Philadelphia, May 20.—The annual meeting of the Jewish Publication society of America was held in Kenneseth Israel temple. In the absence of President Newburger of this city, Dr. Henry M. Leipsziger of New York presided. The proposed amendment to the bylaws of the society authorizing the establishment of a magazine was laid on the table. Morris Newburger of Philadelphia was re-elected president.

Killed by Lightning.

Louisville, May 20.—During a heavy thunderstorm Richard Hoke, 30, a farmer of Jeffersonville, 15 miles from here, was struck by lightning just as he was entering his door and instantly killed. Hoke leaves a wife and one child. Lightning also struck and killed Walter Martin, 21, and fatally injured William Hocker, and a little child of Mrs. Reeves at Stanford, in Lincoln county.

Cincinnati, May 20.—Thomas M. Britton, the once famous jockey, committed suicide by drinking carbolic acid. Britton left a note asking that his body be shipped to his mother, Mrs. Susan B. Franklin of Lexington, Ky. Britton was born at Berea, Ky., 28 years ago, and began to ride at the age of 12 for James Williams of Louisville. He had ridden for W. H. Laudeman, W. S. Barnes, J. E. Pepper and James Murphy. Among the noted horses he rode to victory were Proctor Knott and Yo Tambien. While riding Miss Dixie for Colonel Pepper in Chicago in 1891 he was thrown and his skull was fractured.

CAR WORKS

Will Form An International Organization
Next Wednesday.

Buffalo, N. Y., May 20.—The railroad car workers are planning an international organization, including the United States and Canada. The organization will be called together in this city Wednesday. The men have the endorsement of the prominent labor leaders throughout the country.

Buffalo, May 20.—The Pan-American exposition opened auspiciously today, with speeches by Roosevelt and Lieut. Gov. Woodruff. Mark Hanna was an honored guest. Thirty-four excursion trains brought in thousands from all parts of this country and Canada.

MADE

Special Order, for
Thursday,

Of the Contest

On the Revision of Pres-
byterian Creed.Presbyterian Assembly Get-
ting Ready for the
Final Struggle.Opinions are So Diversified That a
Forecast of the Result is Im-
possible—Judicial Com-
mission Next.

Philadelphia, May 20.—The great question before the Presbyterian church for years, the revision of the confession of faith, will be taken up by the assembly Thursday. The hearing and the consideration of the report of the committee upon the revision of the creedal statements of the church, appointed at St. Louis last year, was made a special order for that day, and the matter will remain before the assembly until it is disposed of.

At this time it is impossible to forecast the action of the commissioners. The committee in its report recommends the appointment of a committee as provided for in the form of government, and that this committee be instructed to prepare a brief summary of "the reformed faith, bearing the same relations to the confession which the shorter catechism bears to the larger catechism, and formed on the general model of the consensus of 1892, or 'the articles of faith' of the Presbyterian church of England."

There is a considerable number of commissioners who believe such a committee will be appointed, but many of them will not venture an opinion as to what will be the character of the instructions to be given the new committee. There are six or seven factions, and each will contend that the committee ought to be given instructions along the lines of its belief.

After the creedal question is out of the way the matter of a judicial commission will be the order of business, and will be considered until disposed of.

Southern Presbyterians.

Little Rock, May 20.—The Southern Presbyterian general assembly took up the proposition to revise the church law on ecclesiastical commissions. The catechism prepared by a committee of which Dr. Robert P. Kerr of Virginia is chairman, was also considered. Moderator Woods appointed a special committee to pass upon the question of inserting a footnote in the confession of faith after "the elect infant" clause. The report of this committee will doubtless bring out a spirited discussion. A number of protests against inserting the footnote are before the committee.

The Machinists' Strike.

Washington, May 20.—The strike order issued by the executive board of the International Order of Machinists went into effect at 7 a. m. President O'Connell said that about 50,000 men will be affected. All the firms in St. Louis and also all those in New Orleans have acceded to the demands of the men. Scattered reports from other cities favorable to the men were also received. It is estimated that 35 per cent of the employing firms have signed. The 50,000 men are scattered all over the country. The national officers are hopeful that speedy settlements will be reached in most of the eastern cities, but they fear a more prolonged struggle on recognition of the union.

Porte Ready to Apologize.

Constantinople, May 20.—Ahmed Tewfik Pasha, Ottoman minister of foreign affairs, called on the ambassadors and notified them of Turkey's desire to re-establish the status quo ante in the postal question, and her intention to send a high functionary, probably the foreign minister himself, to apologize for the violations of the foreign mail bags. The ambassadors met at the residence of the German ambassador to determine what attitude to adopt in view of the complete submission of the sublime porte.

Driving Out Monks and Nuns.

City of Mexico, May 20.—The breaking up of the convent of the Carmelite nuns in this city is believed to be the beginning of a movement to drive out monks and nuns living in communities in disobedience of the reform laws. There is much agitation of the matter in religious circles, but the liberal party newspapers commend the firm action of the government, which, it is declared, will be kept up.

Found in a Bottle.

New York, May 20.—William Stanfield, a boatman, found a bottle drifting with the tide near the quarantine station. It contained a card of "A. V. Freeman, Menominee, Mich., district manager Rube & Watson, ties poles and posts, Chicago, Ills." On the reverse side was written in lead pencil: "God knows I had no choice. Did not come from Michigan with this intention. They say drowning is painless." Stanfield has written to the company indicated on the card, giving the particulars of the find.

Aid in Chicago.

Chicago, May 20.—The Chicago Federation of Labor endorsed the demands of the International Association of Machinists and pledged its moral and financial support during the struggle of the machinists.

Left Naked by Robbers.

Fairmont, W. Va., May 20.—George Matheson was held up by five armed negroes, who stole his money, watch, and even his clothes, leaving him naked on the road.

Lightning Struck a Church.

Columbia, S. C., May 20.—Lightning struck the church at Elenton as the congregation was leaving. A number of persons were hurt by flying debris.

MACHINISTS'

Strikes On All Over the
Country.Six Thousand Men Are Out
in Connecticut.Thirty-five Hundred Men Idle in
Hartford and No Effort Toward
a Settlement Has Yet
Been Made.

New Haven, May 20.—As a result of the demand of the machinists for a 9-hour day, the situation in Connecticut, on reports from the manufacturing centers of the state, has a serious aspect. The strikes are confined to a portion only of Connecticut cities, but accomplish a virtual complete tying up of the machinists, screw workers and metal workers' industries. Hartford, Waterbury, Bridgeport, New Britain and the neighboring cities of Ansonia and Derby are the storm centers. In these, an estimated total of 6,000 men are idle. At New Haven the largest concerns, the Winchester Arms company, the Sargent company, the Marlin Arms company and the New Haven Clock company effected a settlement. At New London the 500 machinists have not yet become organized and no demand will be made for a shorter day. In many of the smaller towns the same is true. A settlement has been effected at the large Norwalk iron works. The largest strike is at Hartford, where about 3,500 hands are concerned. Here practically no settlement has been attempted by either employers or employees.

CANTON

The Place Where She
Will be Taken.Mrs. McKinley Will Not Go
to Washington.Regards the Climate of Her Ohio
Home as More Conducive to
Convalescence Than the
National Capitol.

San Francisco, May 20.—The King and Queen of England and the President of France have cabled inquiries regarding Mrs. McKinley's health. President McKinley has sent them reassuring replies. The physicians now regard the first lady of the land quite out of danger and unless unforeseen complications arise, she will be able to leave for the east in a few days. The President will not start, however, until she is quite strong. It is believed now that a week will be required to gain sufficient strength to travel. Instead of returning to Washington, Mrs. McKinley will be taken to her old home at Canton, Ohio, where the climate is believed to be better for her convalescence. The President will then proceed to Washington to attend to a little urgent business and will return to his wife in Ohio. The President will not make any long stops on the way back, which will be by the Ogden route, but will probably do some speaking from the rear end of the car. Before leaving San Francisco, the President will review troops just returned from the Philippines and give a reception to school children which was declared off last week.

American Relief Expe-
dition Ends.General Chaffee Has Issued
His Farewell Order in
Peking.Ministers Are Continually Handi-
capped by Conflicting Orders
From Their Home Gov-
ernments.

Peking, May 20.—General Chaffee has issued his farewell order ending the American relief expedition in China. The American troops will board the transports Wednesday at Taku, and Thursday will leave direct for Manila.

M. Pichon, the French minister, has left here for home.

At the meeting of the foreign ministers it is not likely much will be accomplished, as some of the ministers have not yet received instructions from their home governments.

The ministers, commenting on the blame attached to them by the people for their slowness, say they are powerless to act without orders from home. One of the foreign ministers said he had been instructed to cooperate heartily with the other ministers. He found, on consultation with his colleagues, that their instructions were absolutely different from his. Consequently co-operation was practically impossible.

First Refiner of Petroleum.

Fair Haven, Mass., May 20.—Weston Howard, 85, discoverer of the method of refining petroleum, is dead. In 1860 he tried his experiments with petroleum, which had just been found in Pennsylvania in large quantities, and was about to give up the problem. By accident he solved the secret of refining and, convinced that petroleum was to be the oil of the future, he established a factory here. It brought him a fortune and fame.

Bishop O'Connell Consecrated.

Rome, May 20.—Mgr. O'Connell, formerly rector of the American college in Rome, and recently appointed bishop of Portland, Me., was solemnly consecrated in the Church of St. John Lateran by Cardinal Satolli, prefect of the propaganda, and formerly apostolic delegate to the United States. The ceremony was performed in the presence of a few invited guests.

Spanish Elections and Strikes.

Madrid, May 20.—The elections to the new chamber of deputies have been held. At Bilbao there was a quarrel between a ministerialist and a socialist, and the latter was killed. Another person was killed at Cuenca, a suburb of Bilbao. The strikes of agricultural laborers in Andalusia are assuming alarming proportions.

Shot His Daughter's Sutor.

Metropolis, Ills., May 20.—Ennis Reed, 18, shot and seriously wounded George Williams. Williams objected to Reed calling on his daughter and when he found the young man at his house a quarrel arose which ended in the shooting.

Smothered by Gas.

New York, May 20.—Robert Gibbs, 52, superintendent of an iron molding works in Pittsburgh, and a man of considerable wealth, was found dead in his room on West Twenty-second street, having been asphyxiated by gas. Indications are that the death was accidental.

At Philadelphia.

Philadelphia, May 20.—About 2,000 machinists are on strike in this city for the 9-hour day. There are about 6,000 machinists in the city, employed by about 150 firms.

May Appeal to Morgan.

New York, May 20.—Leading labor men and representatives of the leading employers hope pending questions may be settled without an extended strike. It is indicated that J. P. Morgan might be appealed to and requested to use his influence with the great industrial combinations in the interest of peace, thus preventing trouble, in much the same manner as the great coal strikes have been settled during the past year.

Strike Averted at Denver.

Denver, May 20.—The threatened strike of the manufacturing machinists of Denver has been averted, the local members of the National Metal Trades association, having granted the 9-hour day and the scale of wages demanded by the machinists' union.

MERELY MOONSHINE.

The King Will Not Abdicate Nor Will
Queen Draga Be Banished.

Belgrade, May 20.—All rumors regarding the abdication of King Alexander and the banishment of Queen Draga, growing out of the recent sensational experiences of the Serbian royal family, are declared to be without foundation. Professor Cantacuzene of Bucharest, who was summoned with Dr. Wertheim of Vienna, announces that Queen Draga presents all the symptoms of false or nervous pregnancy, and that the rapid development of the symptoms was brought about by the advice given her majesty by a physician who, in urging her to lead a sedentary life, encouraged the queen in the opinion that she was enceinte, which produced an abnormal condition calculated to mislead both herself and her entourage. The two specialists declare that Queen Draga is suffering from neuritis, but that her condition is not serious.

Situation at Cleveland.

Cleveland, May 20.—The greater number of the union machinists of this city are on strike, for when they quit work Saturday it was until their demands were granted by the employers. The machinists held a big meeting and are firm in their intention to remain out. Probably 1,200 men will be idle. Eleven concerns have agreed to pay the union scale and concede the reduced hours. Their men will therefore not strike. They comprise the smaller factories.

Sailor Bob Pleaded Guilty.

Philadelphia, May 20.—The trial of "Sailor Bob" Bryan, one of the persons accused of complicity in the murder of the Rev. Father Charles P. Riegel, came to a sudden end. Bryan withdrew the plea of not guilty and entered a plea of guilty of murder in the second degree. District Attorney Rothermel said he was willing, and Judge Stevenson directed that the plea be recorded.

American Preacher Suicided.

Naples, May 20.—Further investigation into the case of the American clergyman who committed suicide here in the international hospital, by severing an artery of his wrist and swallowing corrosive sublimate, proves the suicide to have been the Rev. Malthe Davenport Babcock. He was pastor of the Brick Presbyterian church in New York.

Cabinet Crisis in Peru.

Lima, Peru, May 20.—A cabinet crisis is reported to be imminent. It is said the Peruvian minister of finance, Domingo Almenara, has threatened to resign, as he disagrees with his colleagues on the details of the salt monopoly.

MAJORITY

And Minority Reports
SubmittedBy Members of the Cuban
Relations Committee.Majority Favor the Platt Amend-
ment if Qualified, and Minority
Objects to the Measure.
Generally.

Havana, May 20.—The committee on relations of the Cuban constitutional convention submitted majority and minority reports to the convention. The majority report, in an introduction, quotes article 1 of the treaty of Paris, the joint resolution of the United States congress and the Platt amendment, and recommends its acceptance on conditions that the right of interference reserved by the United States is merely to preserve the independence of Cuba, and shall suppose neither sovereignty nor a protectorate. The minority report objects to the conditions of the Platt amendment generally.

Cape Town Cathedral.

London, May 20.—King Edward has become patron, and the archbishop of Canterbury and Earl Roberts have become vice patrons of the fund being raised to erect the eastern portion of the new cathedral in Cape Town in memory of those who have fallen in the war in South Africa.

Lull in Colombian Revolution.

Kingston, Jamaica, May 20.—The British steamer Para, Captain Stranger, arrived here from Colon, reports the suspension of hostilities by the Colombian rebels, and that the Colombian government is believed to be negotiating to end the revolution.

Refused by Railroads.

Wilkesbarre, Pa., May 20.—The Lehigh Valley railroad and the Central Railroad of New Jersey have declined to grant the machinists employed in their shops here a 9-hour day, and the men are out. About 1,400 men are affected.

Triplets Twice.

Newark, O., May 20.—Mrs. Val Rogers of Hopewell township for the second time has given birth to triplets, two boys and a girl.

FEUD

Between Two Indi-
ana Families

Results Fatal.

Man and Wife Were
Both Killed.Murderer Terminated His
Own Life Rather Than
be Captured.Cows Belonging to the Murdered
Man Were Shot and His Stable
Was Fired—A Policeman
Seriously Wounded.

Evansville, Ind., May 20.—Evert Conway, 27, married, shot and killed C. W. Garrison and wife and fatally wounded Parolman Ben Wallis. After being driven to desperation by the police, Conway killed himself. Conway was a neighbor of the Garrisons. The two families had not been on friendly terms for several months. The wives of the men quarreled.

Conway, armed with a shotgun, went to the stable, where Garrison was milking, and shot him dead. Then he shot and killed Garrison's cows. Mrs. Garrison ran from the house. Conway met her at the steps and emptied both barrels into her breast. She fell dead at his feet. The murderer next set fire to the Garrison stable and the fire department was called out and extinguished the fire. Conway then barricaded himself in his house and when Patrolman Wallis attempted to arrest him Conway shot him in the face and side.

Riot at Connellsville.

Connellsville, Pa., May 20.—The town is quiet after the excitement over the murder of Assistant Yardmaster William Moore and the attempted lynching of William Fairfax, the negro murderer. By a counter-attack of the mob and then dashed down a rear way to the railroad with Fairfax and got him away safely to Uniontown jail. A heavy rope dangles from an upper story of the town hall as a warning to the negroes of this vicinity. It is said that in answer to an advertisement for 500 workmen to work on big sewer contracts here, many negroes are coming from Romania, Va. Citizens are discussing means for self-protection during the next six months. Another shooting occurred on Main street which will result in murder. The victim is John Human and his assailant Frank Jett. The two men are colored and came from Rappahannock, Va., a month ago.

At Scranton.

Scranton, Pa., May 20.—The 1,000 Scranton and Wilkesbarre employees of the Dickson Manufacturing company's machine shops, now a part of the Allis-Chalmers combine, refused to accept the company's offer of a 9-hour day and arbitration of the wage question, and are on strike. The 300 employees of the Scranton bolt and nut works refused a liberal offer from President Zehnder because it was at variance with the union demand of a 9-hour day at 10-hours' pay. The Delaware, Lackawanna and Western company, whose 800 machinists here have been on a strike for two weeks, continues to import men from all over the country to take strikers' places.

Pan-American Dedication.

Buffalo, May 20.—At noon after a parade, partly military and partly civic, with ceremonies of dignity becoming the occasion, the Pan-American exposition was dedicated to the liberal and peaceful arts which it typifies. The buildings in the exposition city are practically completed. Senators Hanna and Harry Cabot Lodge spent the afternoon at the grounds and the members of the St. Louis exposition directorate were also conspicuous visitors.

Communists Celebrated.

Paris, May 20.—The revolutionary groups celebrated as usual the anniversary of the commune, marching in batches to the cemetery of Pere La Chaise and depositing wreaths at the foot of the wall where the communists were shot. Stringent measures were taken by the police to preserve order, and a number of demonstrators who shouted "Vive la Commune" and "Vive la Revolution" were arrested, though most of them were released.

Mrs. McKinley Better.

San Francisco, May 20.—Mrs. McKinley continues to grow stronger. She was able to sit up awhile Sunday afternoon. It is not yet determined when the president will return to Washington. Secretary Long was called to Colorado Springs, Colo., on account of the illness of his daughter, who resides there.

Poisoned by Absorption

POISON OAK, POISON IVY, BARBER'S ITCH, LEAD AND BRASS POISONING, ETC.

Through the pores of the skin many poisons are absorbed into the blood, deranging the circulation and affecting the constitution as quickly and seriously as those generated within the system. Just under the skin are innumerable hair-like blood vessels, and connecting these with the skin are millions of small tubes or glands, through which the poison is conveyed to the blood system. During the spring and summer, while the skin is most active and the pores well open, we are much more liable to be affected by these poisons than in the winter. Workers in brass, copper, lead and zinc have their health impaired and the blood supply poisoned through the absorption of fine particles of these metals and the acids used in polishing and cleaning them. Inhaling the fumes of lead give painters that pallid, waxy appearance of the skin. Barber's Itch is another disease that reaches the blood through the skin, and is a most obstinate one when it becomes firmly fixed in the system. After the poison has reached the blood and been disseminated throughout the system it is too late to resort to local applications. In many cases the blood is affected simultaneously with the appearance of the rash or eruption on the skin, and all efforts should be directed to the purification and building up of the blood. Ugly eruptions and sores will continue to break out in spite of salves, washes, soaps or other external treatment.

S. S. S. is especially recommended for poisons of this character. So completely does it destroy the effects of the Oak and Ivy that there is no possibility of its recurrence, and it is equally as efficacious in brass or lead poisoning or Barber's Itch: building up and purifying the blood and driving out of the circulation impurities of every kind, and removing every blemish, sore or eruption from the skin. There is no substitute for S. S. S.; it is the only purely vegetable blood purifier known, and the safest and best in all constitutional or blood diseases.

Our Medical Consultation Department.—If you desire any special information or advice about your case, write our physicians, explaining your condition, and they will carefully consider what you have to say and you will receive a prompt reply. Our physicians have made a study of blood and skin diseases, and you can have the benefit of their experience and skill without any cost to you whatever. Don't hesitate to write fully about yourself, as nothing you say goes beyond our office. We have a very interesting book on Blood and Skin Diseases, which we will be glad to mail free.

Banks in Beaumont Close Their Doors to Catch Up With Business

And the Little Town of 7,000 is Struggling to Give Accommodation to 25,000 Speculators and Sightseers.

Special Service.

Beaumont, Tex., May 20.—If it were not for the stimulating effect of the speculative excitement, it does not seem possible that the thousands of people who have been drawn to this town by the oil magnet could stand up under the physical discomforts which all, excepting a few fortunate ones, are obliged to endure.

Imagine a town of about 7,000 people, with only two or three small hotels, a very limited number of eating places, poor sanitary arrangements and worse water, suddenly called upon to house, feed and otherwise accommodate from 20,000 to 25,000 strangers, and some days as high as 35,000. For the past four months this has been the situation in Beaumont. Of course, the greatest congestion has been and is about the hotels. At times it is physically impossible to crowd into the hotel lobbies, so densely are they packed.

The New Crosby hotel, the biggest and not the worst here, has put as many as eight people in a room intended to accommodate but two. It is the same story everywhere, and yet, with all the crowding and jamming and doubling up—thousands have walked the streets night after night, or slept in chairs or on soft side of boards. They say that it is not so bad now as it was up to a couple of weeks ago, but its so bad now that its hard to credit that statement.

The natives here drink surface water. It's full of things that squirm and wiggle and make faces to you. Not the kind of wiggles that Lake Erie water harbors, but big, meaty fellows. A glass of Beaumont water satisfies the hunger but does not quench the thirst. There isn't enough liquid in it for that. It also gives the tenderfoot pains in the stomach and bowels and affects him in other ways.

After you have learned these things by experience, one is apt to forget his temperate habits and in self defense go saloonward when thirsty. It takes about thirty minutes to get a drink in a saloon. The crowd is usually five deep around the bar; sometimes ten deep. You fall in behind and edge up gradually. When you finally get to the throne, it usually happens that they are just out of what you want and you order something more expensive. Next to the owner of a gusher, the saloonkeeper has the best paying institution here. Barber shops are working relays of barbers, are open night and day, and charge 25 cents per shave. The barbers will not cut your hair if anyone is waiting, and someone is always waiting.

The owner of a barber shop next to the New Crosby hotel, has a three-year lease on his place of business. It is the best business site in town, within a few arms length of the speculative maelstrom. He was offered \$10,000 for his lease by a syndicate which wanted the place for a new bank. He refused. He said he was making all the money he wanted and if he took the \$10,000 he might be tempted to buy oil stock and lose it.

There are only two banks here and they have so much business that they close their doors for hours at a time to catch up.

At 12:30 p. m., one day last week, this typewritten sign was posted on the glass door of one of the banks:

"This bank closed until 12 o'clock tonight. We have more business than we can attend to. Please do not ask to come in."

Several new banks are projected, and will be started as soon as locations can be found for them.

At the post office it takes just about an hour and a half to get to any of the windows. For several hours before the windows are opened, at 9 a. m., the crowd is lined up, and the line gets longer as the day progresses. Both of the telegraph companies have offices here, and dozens of extra operators have been brought in, but the volume of business is so great that both out-

going and incoming messages are piled up several feet deep nearly all the time.

Started Out Well.

What promises to be one of the largest oil wells ever drilled in Hancock county is being completed by the Ohio Oil company on the Henry Nieble farm, in Marion township, says the Findlay Republican. Thursday night the drill penetrated an unusually prolific pay sand, found something over 100 feet in the Trenton. The drillers were aware at once that they had a big well on their hands. As is ordered by the Ohio Oil company, the contractors had an oil saver in the rig. After drilling a few feet the well cut loose and flowed furiously, compelling the drillers to stop work. To curtail the flow of oil the stop cock in the connections was all but shut off. Notwithstanding the small aperture through which the fluid passed, the flow was estimated at fifteen barrels an hour. Eugene Palmer of the Ohio Oil company, who visited the well, claims it to be the largest he has seen for several years, and says that, had the well been allowed to flow through the lease line unimpeded, the product in twenty-four hours would have amounted to 1,000 barrels. This makes another of a dozen of fine wells drilled within the last year in the Marion township field. Of course it is not likely that the well in a month, or even a week from now, will do anything like its first day's production.

CLERK AND CARRIER EXAMINATION, JUNE 19, 1901.

The United States Civil Service Commission announces that on June 19, 1901, an examination will be held in this city for the position of clerk and carrier in the post office service.

All persons who have been examined for the position of clerk or carrier within the past year and failed to pass may be examined upon filing new applications in due time.

This examination offers an excellent opportunity for entering the Federal service to bright, energetic young persons who are not afraid of hard work, and the Commission hopes that a sufficient number of intelligent, active persons will present themselves for this examination. It may be stated that there is a wider field for advancement upon merit in the Federal service than in any private employment, not only by promotion in the same office, but by transfer to other parts of the service.

The nature of the examination is a test of practical, general intelligence, and of adaptability in post-office work. The age limitations for this examination are as follows: Clerk, not less than 18 years. Carrier, between 21 and 40 years.

Applications for male clerk and carrier must have the medical certificate in form 101 executed. Applicants for carrier must be at least 5 feet 4 inches in height, and weigh not less than 125 pounds. Female applicants are not required to have this certificate executed.

This examination is open to all citizens of the United States who may desire to enter the service, and who comply with the requirements. All such persons are invited to apply, but attention is invited to the fact that from those certified the Department usually selects for appointment eligibles who are residents of the district in which the vacancies exist. Applicants will be examined, graded, and certified with entire impartiality and wholly without regard to any consideration save their ability as shown by the grade attained in the examination.

For application blanks (form 101), full instructions, specimen examination questions, and information relative to the duties and salaries of the different positions, application should be made to the undersigned.

Applications must be on file with the secretary of the local board before the hour of closing business on June 12, 1901.

EDA. M. BALLARD,
Secretary Postal Board.

ANOTHER BOER LEADER

In Kritzinger Burghers Have a Second De Wet.

EASILY ELUDES HIS PURSUERS.

At One Time He Was Hotly Chased by Seven Columns and Escaped From Them All—Experience of a British Officer With the Boer Commandant.

Kritzinger, the Boer commander whose name has figured so prominently in connection with the invasion of Cape Colony, seems to be a leader of exceptional ability not second even to the celebrated Christian De Wet, says the New York Sun.

Times without number since he has been in the colony he has been described as hotly pursued, cornered or crushed up against the Orange river in full flood, his capture being expected every hour, but when the columns surrounding him and his hard pressed force converged at the point where he was expected to be found it was invariably discovered that he had passed through some gap in the British encircling line and doubled back on his tracks or gone off in some other direction. At one moment he will have more than 1,000 men with him, and a day or two later, when the British have concentrated, it will be only to find that they have broken up into small bands and disappeared among the mountains, where pursuit is useless.

One correspondent wrote at the end of March that the chase after Kritzinger continued unabated and was full of curious situations. No fewer than seven columns were in hot pursuit of him, driving him to the Orange river, which was unfordable, but when they thought they had him caught they discovered that he was 50 miles in their rear, threatening the railway after having broken up his command into two sections. Then everything had to begin again.

An officer of the intelligence department who fell into Kritzinger's hands gives an interesting account of his experience. Life was on his way to notify the local force in the Cradock district of Kritzinger's proximity, when he found the drift where he had proposed to cross a river held by the Boers. Endeavoring to swim the stream at another point, he lost his horse and narrowly escaped drowning, being rescued by a passing Kafir who chanced that way.

Later he recovered his horse, which had landed lower down, and rode off to warn the locals. He had ridden barely ten minutes in the direction he had to go when he was brought up short by two men sitting on a bank. One called out, "Good morning," and the two advanced to make him prisoner. One was the Boer commander and the other his right hand man, Kroger. They were watching a large British force which was crossing the railway line in the far distance.

Finding there was no help for it, he submitted with good grace and was closely searched, but no papers were found on him, he having previously destroyed those he had carried. He was deprived of his horse, saddle and girth, but his watch and money were left with him.

Kritzinger he described as a fine looking man about 5 feet 10 inches in height, broadly built and speaking English perfectly. At the time of their meeting the Boer commander was attired in lavender colored trousers, with yellow tanned gaiters, a well cut coat, starched white linen shirt and a brand new talipao hat with puggerie. He wore gloves and carried a hunting crop. His men were well dressed, and all their horses were in splendid condition.

It was believed that one of the reasons for General De Wet's return north of the Orange river so soon after his last advance into Cape Colony was his recognition of Kritzinger's ability to carry on the operations without his assistance.

CENSUS TO SETTLE A BET.

Enumeration Started in Two Rural Wisconsin Towns.

A special census of the towns of Salem and Bristol, rural villages in Kenosha county, Wis., has been ordered for the sole purpose of deciding a wager in which the town having the larger population will be the beneficiary, says the Milwaukee Sentinel.

Some time ago the report of the last census was given out, and it showed Bristol to be the second largest town in the county. Salem had claimed the honor, and the residents of the two towns have been sparing over the matter ever since. The other day a number of the people of Bristol met a number of the people of Salem at another village, and a large wager was laid on the population. It is stated that the wager stipulated that the losing town was to pay the expenses of the enumeration, and the winning town was to have the amount of the wager to be applied on the library fund. The wager was sanctioned by the leading people of the two towns, and a special census was ordered taken. The enumerators started their work the other morning. By the last census Bristol was given a population of 180 and Salem 112.

War on Jersey Mosquitoes.

The mosquito extermination committee of the Town Improvement association in Summit, N. J., has decided to call the Standard Oil trust to its aid, says the Philadelphia Press. Pipe lines will be laid to all the swamp land about the village, and the surface of the waters will be covered with oil. This, it is declared, will prevent the mosquitoes from breeding.

With this issue of the Times-Democrat, we present a picture of the proposed Epworth M. E. Church. The plans and specifications are all completed and the building committee is about ready to begin its erection. The edifice is romantic in style with some gothic features. The extreme dimensions of the building is 61x88 feet. The main floor is to contain an auditorium and Sabbath school room, separated with folding, sliding doors, so that both rooms can be thrown together. The auditorium will have a seating capacity of over 300 and will have a bowled floor and still ceiling. The choir platform will be above and to the rear of the pulpit and can be entered either from the auditorium or from the ladies' parlor, which is immediately under the choir platform and extending into the basement, thus affording an entrance on street level. The ladies' parlor will also be used, not only on Sabbath as a convenient

walls being plastered with a sand float finish for frescoing. The wood work will be of "Arkansas" yellow pine, with natural finish. The exterior of the building will be brick with sand stone trimmings. The roof is to be of black slate.

Taken all in all, it is to be one of the neatest and the most beautiful little churches in the city, and yet because of the natural condition of the lot requiring little excavating; and the plainness of its finish is one of the cheapest. The estimated cost of the building is \$7,000.

The society is growing rapidly and is in a very prosperous condition. The Sabbath school has an average attendance of over 150 last year and would surpass that this year had they a larger room. The subscriptions are coming in, in a very encouraging manner and work will be begun at once. This is a most worthy enterprise and every one ought to give something toward helping it along. Such a modern building planned by our home architects, Messrs Leach & Leach, will not only be a means of doing much good, but will also be an ornament to our fast

BON AMI.

It is said that an observing grocer once remarked to a customer that there was needed in his community, a fine scouring soap. That the trouble with preparations then offered was that they scratched and actually wore out surfaces on which they were used. In fact the complaint so often made by housewives that nickel, copper and tin utensils were not as well made as they used to be, that is, did not wear or last as long, was due to the coarse scouring soaps used on them, and not to any change in the process of manufacturing these articles. True these coarse scouring soaps made cleaning somewhat easier than the use of water only, but at the expense of wearing out the articles cleaned. Therefore the need of a preparation that was coarse enough to clean and polish easily and at the same time fine enough not to wear out the surface on which it was used.

From this observation of the grocer, sprang Bon Ami, the finest cleaner made and which is of necessity the most economical cleaner made, not from the standpoint of the price per cake, but from the standpoint of the wear and tear saved on the articles cleaned.

THE GREATEST SEWES.

The great Wallace shows will exhibit in Lima on Saturday, June 1st. This show was called "The Greatest Show" in an editorial mentioned by the Post of Washington, D. C. In part the Post said:

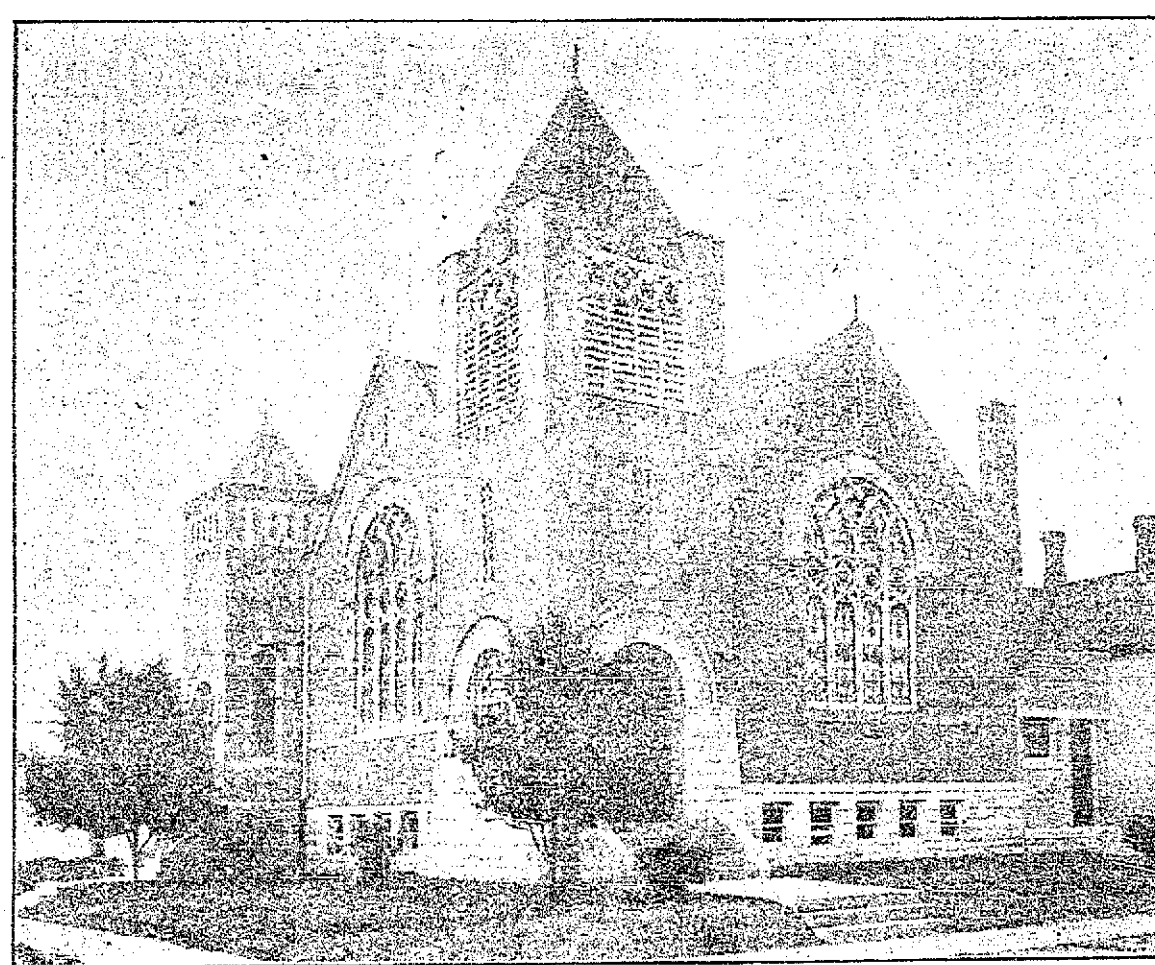

"The Great Wallace Show represents all that there is of the legitimate worth in the circus business. It is in charge of men who aspire to elevate the tone and purify the atmosphere of the calling, and we believe the thousands who have attended the performances during the past two days will certify they have succeeded. Not only was the performance up to the highest professional and artistic standard, the menagerie large and varied, and the trained animals of the best, but there was not in connection with the Wallace show a single one of those discreditable and demoralizing features which have done so much to give the circus a bad name and to discourage the true friends of that otherwise wholesome form of amusement."

DROPS WEAK FIGHTERS.

General Botha Wants Only Those Who Will Struggle to the Finish. Dutch refugees who have arrived at Pretoria from Pietersburg say the reason that there have been so many Boer surrenders recently is because Commander in Chief Botha wishes to get rid of his weak fighters, who, instead of helping him, are an incumbrance. These refugees say that General Botha recently made an address to the burghers in which he declared that he wished to retain only those who were willing to fight to the finish. The fact remains, however, says the New York Sun's correspondent, that the best of the Boer fighters steal away and surrender wherever they have a chance, as they are heartily sick of undergoing hardships without any object in view.

place for mothers to take restless children, but also for the regular meeting place of the Ladies' Aid Society and other meetings of official character.

The Sabbath school room will be in keeping with the auditorium as regards to finish. It will have separate class rooms with rolling partitions so that they all may be thrown into one room having a seating capacity of over 400.

There will be three entrances; the main entrance in the tower, one at the side and one at the rear. The basement will be divided into kitchen, dining room, furnace and fuel rooms and will contain all the modern improvements usually placed in a building of this character. The building will be heated with hot air.

The interior finish will be in keeping with the balance of the building, the

SHUDDERS AT HIS PAST.

"I recall now with humor," says Mail Carrier Burnett Mann, of Levan, Ohio, "my three years of suffering from kidney trouble. I was hardly ever free from dull aches or acute pains in my back. To stoop or lift mail sacks made me groan. I felt tired, worn out, about ready to give up, when I began to use Electric Bitters, but six bottles completely cured me and made me feel like a new man." They're unrivaled to regulate stomach, Liver, Kidneys and bowels. Perfect satisfaction guaranteed by H. F. Vorkamp. Only 50 cents.

DEMOCRATIC SENATORIAL CONVENTION.

The Democrats of the 23d Senatorial District of Ohio will meet in convention at Lima, Ohio on Wednesday, May 22, 1901.

The purpose of the convention is to nominate delegates to the Democratic National Convention to be held at St. Louis, Mo., August 6, 1904.

The Senatorial Committee has appointed the following delegates to the convention: Allen, 6540; Aughaize, 4312; DeBanco, 3793; Mercer, 4180; Panning, 2284; Van Wert, 2563; Williams, 3049.

Total number delegates, 295.

Secretary pro tem Chairman

The Baltimore American, the leading Republican organ of Maryland, seems to be disgusted with the dictatorial methods of the only Mark Hanna and throws the following uncompromisingly worded editorial:

Senator Hanna is known to fame only as a consummate politician and a successful business man, and in these respects he is all that any man can claim for him, but, so far as known, his abilities end there. He has given no demonstration of statesmanlike ability, his name attaches to no great achievement of statesmanship, and it will be impossible for Mr. Heath or any other man to label the Ohio senator a statesman and set him up before the people expecting them to believe that he is what he is tagged. And as a politician Senator Hanna has quite exhausted his mission. His dictatorial methods, his irrepressibility, the sedulous manner in which he has promoted the interests of gigantic combinations and aggregations of capital together with other things that might be mentioned, have all combined to place him beyond the pale of possibility as a presidential candidate.

Col. James Kilbourne, who has received the unanimous endorsement of the Democratic central committee of Franklin county for governor, has formally announced himself as a candidate, and asks the support of his friends.

The Enquirer of Thursday published special dispatches from ninety-five Democratic editors in Ohio on governorship, and fifty-six of these were straight declarations in favor of Col. Kilbourne as the Democratic candidate for governor. Several of the remaining thirty-nine were in favor of Kilbourne as second choice.

Among the other candidates mentioned were A. W. Patrick, Tom L. Johnson, John L. Zimmerman, John J. Lentz and John C. Welty.

Col. Kilbourne is favored because he is known to be a man of ability, of first class character and reputation, and he is believed to be the strongest man whom the Democrats can nominate.

The hospital for epileptics, at Gallipolis, is running into a deficiency that will reach \$24,000 for the year ending next November. This is the institution which has been the center of political jobs ever since its creation. Dr. Rutter, whose administration covered six years, was recently asked by Governor Nash, to step down and out.

In order to please the Republican politicians of Gallia county. The administration of Dr. Rutter has been in direct opposition to the desires of the powers that be and so strong was he "set in his way" that it required the combined efforts of the politicians of the state to dethrone him.

Hubbard B. McDonald, journal clerk of the United States senate, is credited with being the ablest parliamentarian connected with that body. He is the third of his family to hold the position, his father and grandfather having preceded him. His business is to sit close to the presiding officer and keep him from falling into parliamentary pitfalls. He reports that of all the vice presidents he has coached in his twenty-five years experience Teddy Roosevelt is much the hardest to keep in line.

DEATH

Came as a Sweet Relief to the Sufferer.

Mrs. Elizabeth Bunn Died Saturday Evening and the Remains Were Taken to Jackson.

Mrs. Elizabeth Bunn, mother of Mrs. John Pyle, died at the latter's home, corner of Park avenue and High street, Saturday evening after a long period of suffering. Disease had made gradual encroachments on the mind of the deceased, and while a great charge, no inducements could prevail upon the family to have her treated anywhere but at home, where she received the most kind and loving care. The last three weeks of her life she was confined to her bed, and congestion of the brain finally developed. Funeral services were held at 4 o'clock yesterday afternoon at the house, conducted by Rev. A. D. Wolfinger, of the Calvary Reformed church, and the remains, accompanied by Mr. Pyle and Miss Anna Dismar, were taken to Mrs. Bunn's old home in Jackson for interment, this morning. Mrs. Pyle's condition is such that she was unable to go.

STRANGE

Find Made by a Van Wert County Farmer.

Section of an Iron Safe and Thirteen Silver Dollars Picked up in the Woods.

A story related in local police circles, Saturday, by a well-known resident of Ridge township is a puzzle to the officers, says the Van Wert Bulletin. Greenberry Wright, a farmer, told of seeing a camp fire in a woods near the Pennsylvania railroad several miles east of town. The fire was lighted three or four nights, but did not, at the time, create more than passing interest because it was supposed to have been built by tramps.

On his way to town Mr. Wright cast a curious eye in the direction of the spot where the fire had burned. He saw something bright on the ground and decided to make an investigation. He drove to the place and found a large chunk of iron resembling very much certain parts of the ordinary fire-proof safe. While looking for other pieces of the strong box he discovered thirteen silver dollars on the ground. He pocketed the money and set about to solve the mystery. Later a horse and carriage was driven there. A heavy built man of nervous temperament alighted, searched the ground as if in quest of missing treasure, returned to the carriage apparently disappointed, and drove away. Mr. Wright still has the money. The police are looking for additional evidence to connect the missing links of the story.

The Rebekahs

And Solar Lodge of Odd Fellows

Attend Special Services Conducted by Rev. W. H. Leatherman.

Ray Jacobs, Son of Andrew Jacobs, Seriously Injured by Falling Out of a Tree—Other Newsy Notes.

Yesterday morning Solar lodge of Odd Fellows also Stella lodge of Rebekahs attended in a body the morning services at Grace W. E. church. They were there in response to the invitation of the pastor Rev. W. H. Leatherman who upon the occasion delivered a specially prepared sermon. His subject was "From Jerusalem to Jericho." The theme was admirably applicable to the internal workings of our bodies. Some of the counsel was wisely given the sermon being of a complimentary as well as edifying and beneficial nature was received with approval. The lodges are very grateful to Rev. Leatherman for his friendly manifestation of interest. During the services special music of a high order was rendered. In the evening another large audience assembled at the church to hear Mr. Leatherman's address to young men. He spoke interestingly upon vital matters of momentous importance to the young men of today. His words of encouragement and advice will undoubtedly be treasured and profited by all who heard them. At this service the young men's chorus rendered creditably some enjoyable music.

ush-up occurred on the C. H. & D. railroad Saturday morning in the addition, says the Troy Record, eight cars were derailed and one of them was damaged. The wreck occurred on the local track usually enters a switch on McKnight avenue, allowing a passenger train to pass. Just as the passenger train was about to enter the switch, the local train, which was stopped at the switch, started moving forward. The passenger train, which was moving slowly, struck the local train, causing the wreck. The local train was derailed and the passenger train was delayed. The wreck occurred at about 11 o'clock.

day, but the new schedule will not effect the present arrival or departure of trains on the western division.

Fireman Will Bell, of the C. H. & D., who has been firing a switch engine temporarily in line for a "Pittsburg" engine soon, and may go out on the road again behind one of the big fellows.

F. A. Henry and wife, of Huntington, Ind., are the guests of his brother, C. L. Warner, pony conductor in the C. H. & D. yards. Mr. Henry is assistant foreman of the Erie shops in Huntington.

Richard Thomas, clerk at the time keeper's desk in Supt. Floeter's office, left this morning for Wellston, where he will assume the position of chief clerk in Division Superintendent J. A. Gordon's office.

Train dispatcher F. H. Eisenhardt, of the L. E. & W., spent Sunday at the "Buffalo" outing camp at the Lewistown reservoir. Dispatcher Keller was in charge of his duties during his absence.

A crew of seven carpenters of the C. H. & D. went to Findlay this morning to begin work on the new trestle, but the train stopped the men and they returned to Lima to wait for better weather.

The C. H. & D. will probably handle at this end an excursion to Oklahoma on the 18th of June, to enable those who wish to get on the ground floor when the government opens another big tract of land.

The Ohio Southern had an excursion on both ends of the road yesterday to Quincy, Ohio, one of the pleasant spots on the line for a day's outing. Yard master John Grimsley was sent down to act as trainmaster for L. E. day.

Nate was made Saturday of the arrival in Lima of F. N. Dolph, a former employee of the Big Four at Kenton, to accept a position in the paper mills. A typographical error made Mr. Dolph "foreman," when it should have read "fireman."

The tide of traffic on the Pennsylvania has shifted from the western to the eastern division and in order to handle the increase a transfer of trainmen was necessary. Nine firemen on the Pittsburg were sent to the eastern division Saturday, including C. F. Kent, W. Harmon, W. F. Weibel, N. A. Feltner, George Riley, O. H. Leedy, E. J. Klepper, W. E. The Makers of Wetmore's Best

believe that the most men chew tobacco for the good of the tobacco and not for the sake of a premium. They are putting the value of the premiums all in the quality of the tobacco. The man who chews Wetmore's Best gets his money's worth in good tobacco. He notices the difference in flavor; in lasting quality; in satisfaction, and finds that all this goodness costs him less than cheap tobacco. Try a piece of Wetmore's Best and satisfy yourself that it's "all in the quality."

Any Kind of Fuel

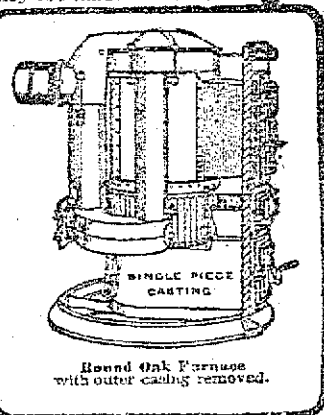

Round Oak Furnaces burn any kind of fuel, give great heat, and hold fire 12 hours with wood, or hours with coal. All of the fuel—the gas from the fire and the black smoke—is consumed, an economy of fuel impossible with the characteristic principle of Round Oak Furnaces.

Round Oak Furnaces

are very easy of operation and require but little attention. They are made of the best materials, constructed by skilled workmen, thoroughly inspected before shipment—and guaranteed without reservation to give entire satisfaction.

THE GREAT SCOURGE
of modern times is consumption. Many cures and discoveries from time to time are published but Foley's Honey and Tar does truthfully claim to cure all cases in the early stages and always affords comfort and relief in the worst cases. The London papers still contain a good deal of gossip about the death of Queen Victoria which they were not allowed to print at the time of that event. The latest of these is that Queen ordered that the wedding ring should not be removed from her finger after death, and that this wish was respected. She had not removed the ring from the day of her marriage.

"I had a running sore on my breast for over a year," says Henry R. Richards of Wilkesville, N. Y., "and tried a great many remedies, but got no relief until I used Banner Salve. After using one-half box, I was perfectly cured. I cannot recommend it too highly."

"It is worth a good deal of pleasure and satisfaction that I recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Druggist A. W. Sawtelle, of Hartford, Conn. "A lady customer, seeing the remedy exposed for sale on my show case, said to me: 'I really believe that medicine saved my life the past summer while at the shore,' and she became so enthusiastic over its merits that I at once made up my mind to recommend it in the future. Recently a gentleman came into my store to overcome with colic pains that he sank at once to the floor. I gave him a dose of this remedy which helped him. I repeated the dose and in fifteen minutes he left my store smilingly informing me that he felt as well as ever." Sold by all druggists.

BEWARE OF A COUGH.

A cough is not a disease but a symptom. Consumption and bronchitis, which are the most dangerous and fatal diseases, have for their first indication a persistent cough, and if properly treated as soon as this cough appears are easily cured. Chamberlain's Cough Remedy has proven wonderfully successful, and gained its wide reputation and extensive sale by its success in curing the diseases which cause coughing. If it is not beneficial it will not cost you a cent. For sale by all druggists.

COLDS

The quickest relief, for a cold, is by Scott's emulsion of cod-liver oil.

We all have colds, you can try it and see. You will find the edge taken off in a night; and, in three or four days, you'll be wondering whether that cold amounted to anything anyhow.

That's relief. If you tackle it quick, the relief is quick and complete, if you wait till the cold is in full possession of head and lung, why, of course, the relief is quick if it comes in a week.

A little emulsion won't clear and restore your whole breathing-machine in a minute; don't be looking for miracles.

Well, and you had better try it, you know. SCOTT & BOWNE, 409 Pearl street, New York.

ACCOMMODATIONS FOR VISITORS IN BUFFALO.

Hundreds of Hotels, Boarding and Rooming Houses, Beddies Many Private Houses, on the List.

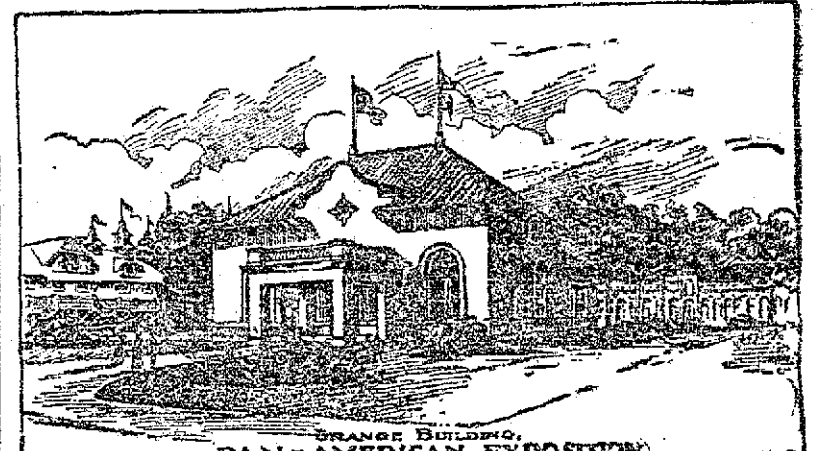

So much has been said and written about the ability of the city of Buffalo to care for the crowds which will attend the Pan-American Exposition this summer that a few facts and figures will be appreciated by the general public.

In the first place, there are listed more than 200 hotels, which will give accommodation to 30,000 people; there are 650 boarding and rooming houses, affording accommodation for 18,500, while 7,000 owners of houses, most of whom never before hung out their lanterns for a consideration, have signified their intention of opening their houses for the accommodation of visitors to Buffalo this summer. These 7,000 houses will accommodate at least 100,000 visitors.

The Exposition Company has arranged to furnish tent accommodations on the Exposition grounds for 250 uniformed men. There are also two companies arranging tent systems which will afford additional accommodation outside of the grounds for 1,500 or so.

In addition to all this, there are a large number of buildings throughout the city now being remodeled and converted into hotels, the plans of which are not far enough along to afford an accurate description or to estimate accommodation at the present time. It is safe to estimate the present capacity of the city of Buffalo to accommodate 150,000 strangers. To this may be added accommodations for at least 50,000 in the surrounding towns, such as Tonawanda, La Salle, Niagara Falls, Lockport, Williamsville, Gettysville, Depew and Lancaster, all within a short trolley ride of the city.

Rates in hotels range from \$1 per day upward. As ridiculous stories have been circulated in regard to exorbitant hotel rates, it is well to note the rates that have been established at the hotels, the most expensive hotel in the city. These are, for one in a room without bath, \$3 and upward; for two in a room without bath, \$5 and upward, thus making the minimum rate \$2.50 per individual. The rate for a room with bath for one person is \$5 or for two in a room \$7.50. This is on the European plan. Of course there are rooms and suites of rooms in this hotel for much higher rates for those who wish to pay them, but the prices here given are the highest in the city for hotel accommodations.

The National Grange and New York State Committee of the Grangers have arranged to entertain 300,000 Grangers during the Exposition. Tickets entitling Grangers to the use of the Grange building and securing accommodations in the city are being supplied to all Granges in the United States and Canada.

MILITARY CAMPS.

Accommodations for the Soldier Boys at the Pan-American Exposition.

Many military organizations intend to visit the Pan-American Exposition during the summer. Arrangements have been made to provide first class accommodations for them.

The Exposition will maintain a permanent camp within the grounds for the accommodation of about 200 men at one time.

This camp will be supplied with tents, floors, cots, buckets, basins, pint cups, light, water and sinks, for the use of which no charge will be made. It will be necessary for visiting organizations to furnish their own blankets and subsistence.

There will be no accommodation for cooking in this camp, but the visitors will not doubt be able to make satisfactory arrangements with restaurants on the grounds at reasonable rates.

It is expected that organizations taking advantage of these camp privileges will, at such time as may be agreed upon beforehand, give military exhibitions without charge in the Stadium.

Bands in uniform will be admitted to the grounds free. Organizations using this camp will pay one general admission per man when they enter the grounds and must be governed by the rules and regulations laid down by the Exposition Company.

On account of the large number of organizations now applying for camp facilities at the Exposition, the use of this camp will be limited to a period not exceeding six days for any one organization.

Large bodies of troops visiting the Exposition must be quartered outside the grounds, where a large camp for this purpose has been established. Major Charles J. Wolf is in charge of the Military Bureau, and he is kept very busy these days furnishing information to organizations intending to visit the Exposition.

The little bee is very busy at the Pan-American Exposition, gathering and storing honey in glass tubes in full view of visitors.

A searchlight on the Electric Tower of the Pan-American Exposition casts rays for a distance of 50 miles.

RICHARD WATSON GILDER'S INSCRIPTIONS.

The Pen of the Gifted Editor Gives a Finishing Touch to the Exposition. He Proclaims a Prophecy and Pronounces a Benediction.

When the people of the two Americas visit the Exposition city just erected "by the great waters of the North," many will recognize the style of Richard Watson Gilder in the classic and poetic inscriptions which adorn its Propylaea, Stadium, bridges, palaces and temples. The Exposition was particularly fortunate in persuading the scholarly editor of the Century to put the finishing touch on the artistic masterpiece. Those who read the legends will feel that their author is a man who "has upheld the ideals of Liberty and Justice" and who throughout a laborious life now in its prime has been "faithful to the things that are eternal," one who "has never shunned the dust and sweat of the contest and on whose brow" already "rests the wreath of the victor's laurel."

INSCRIPTIONS FOR THE PROPYLEA.

PANEL I.

Here, by the great waters of the North, are brought together the peoples of the two Americas, in exposition of their resources, industries, products, inventions, arts and ideas.

PANEL II.

That the century now begun may unite in the bonds of peace, knowledge, sport with friendship and noble emulation all the dwellers on the continents and islands of the new world.

PANEL III.

Not ignoble are the days of peace, not without courage and laurelled victories.

PANEL IV.

He who falls bravely has not truly failed, but is himself also a conqueror.

PANEL V.

Who slumps the dust and sweat of the contest, on his brow falls not the cool shade of the olive.

PANEL VI.

On the pylons are statues of Courage, Liberty, Tolerance, Truth, Benevolence, Patriotism, Hospitality and Justice.

PANEL VII.

The spirit of adventure is the maker of civilizations.

PANEL VIII.

Freedom is but the first lesson in self government.

PANEL IX.

Religious tolerance a safeguard of civil liberty.

PANEL X.

A free state exists only in the virtue of the citizen.

PANEL XI.

Who gives wisely builds mankind and the state—who gives himself gives best.

PANEL XII.

To love one's country above all others is not to despise all others.

PANEL XIII.

The brotherhood of man—the federation of nations—the peace of the world.

PANEL XIV.

Between nation and nation as between man and man lives the one law of right.

PANEL XV.

To the ancient races of America, for whom the new world was the old, that their love of freedom and of nature, their hardy courage, their manhood, their legends and strange songs, may yet perish from the earth.

PANEL XVI.

To the explorers and pioneers who blazed the western path of civilization, to the soldiers and sailors who fought for freedom and for peace and to the civic leaders who save a priceless heritage.

PANEL XVII.

To the great inventors and far-seeing prophets, to the engineers, manufacturers, agriculturists and merchants who have developed the resources of the new world and multiplied the homes of freedom.

PANEL XVIII.

To those who in the deadly mine, on stormy seas, in the fierce breath of the furnace and in all perilous places working ceaselessly bring to their fellow men comfort, sustenance and the grace of life.

PANEL XIX.

To the scholars and laborious investigators who in the old world and the new guard the lamp of knowledge and century by century increase the store of life, civilization, the mind and enlarge the spirit of man.

PANEL XX.

To those painters, sculptors and architects, tellers of tales, poets and creators of music, to those actors and musicians who in the new world have cherished and increased the love of beauty.

PANEL XXI.

To the prophets and heroes, to the mighty poets and divine artists and to all the light bearers of the ancient world who inspired our forefathers and shall lead and enlighten our children's children.

Howled and Police Corralled

Many Victims

Of Dissipation on Saturday Night.

Drunks and Fights Were Common Occurrences About Town

And Today Sore Heads and Big Heads Were Equally Numerous in Mayor's Court—Grist That Was Ground.

Saturday night afforded several busy hours for the police, drunks and fights being quite numerous between the hours of 7 o'clock in the evening and midnight, and consequently their was quite a heavy grist to be ground out in Mayor's Court this morning. Several defendants were fined, several were dismissed and several more are to appear later to either explain away the charges against them or settle for their respective escapades.

Ed. Devaux and George Spell, two strangers who tried to dispose of two coats and a pair of trousers that are believed to have been stolen and who were arrested on suspicion, were arraigned on charges of having stolen a pipe wrench from W. G. Pugliese, proprietor of a south side second hand store. They pleaded not guilty and were bound over to the grand jury and in default of bail they were transferred to the county jail.

A. C. Holland and J. R. McDorman, arrested by officer Sullivan on south Main street on charges of being intoxicated, were released and instructed to appear before the mayor this evening at 7 o'clock.

Arthur De Pratt, arrested by officer Mills and Grant on east Wayne street Saturday night, for fighting, will also appear later for a settlement.

Five men who were arrested in the C. H. & D. yards on suspicion, were ordered to leave the town, as was also a strange colored man, who was arrested on suspicion at the C. H. & D. depot. Two tramps, who were thought to have broken into a car of merchandise in the C. H. & D. yards, but who were found to have occupied a car that was loaded with brick and had not been sealed, were also permitted to leave the city.

Bert Nettle, of Elida, arrested Saturday night for fighting was fined \$5.00. Saturday night Nettle made some insulting remarks in the presence of some ladies on west High street and when cautioned by Charles Dorsey, a drifter, to be more careful and more gentlemanly in his conduct, he assaulted Dorsey and was not only worsted in the fight but was also arrested. No charge was filed against Dorsey.

James Settemire was fined \$5.00 for drunkenness. Charges have been filed against W. Lipfert and R. McGrievy, who are alleged to have assaulted and severely injured Bert Lake in a fight that occurred on north Central avenue Saturday night. They have been instructed to appear before the mayor this evening.

FOUND ONE

Sober Enough to Take Him at His Word.

Henry Roth's place was the scene of a scrap today, which resulted in the arrest of Dave Folk and W. D. Gamber, two of the belligerents. Constable Cremonese took both of the men before Justice Duffield, who set the case for hearing at four o'clock. Folk was able to furnish bond in the sum of \$25 for his appearance at that hour and Gamber asked permission to consult attorney B. S. Henderson.

Both of the parties had been drinking and the trouble, occurred according to Folk, when Gamber offered to whip any sober man in the house. Folk took exception to the remark and a set to followed without any noticeable injury to the principals.

The Hostelry Was Closed Up Some Time Saturday Night.

After an Attorney from Tonawanda, N. Y., Visited the City to Investigate Alleged Charges of Adultery.

The French House, which has been in operation as a hostelry for several months under the management of a man named Billings and a woman, whom many thought was his wife has been closed up between two days and Mr. Billings and the woman in question are not to be seen in its office and dining room.

Billings and the woman came to this city from Tonawanda, N. Y., and an attorney named O'Day, who was in the city Saturday is the principal authority for the information that the woman is the wife of a hotel proprietor named Sparks, also of Tonawanda, and that when she left she took with her \$2,500 that her husband had banked in her name. Mr. O'Day, who is a brother of the chief of police of Tonawanda, also states that

Billings Left a Wife sick in bed in Tonawanda. The attorney was employed to endeavor to recover for the injured husband, Sparks, and had some correspondence with chief Harley requesting information as to whether or not the woman and Billings were living in adultery here. The chief's investigation and reply brought the attorney here and Saturday afternoon he had a conference with Billings and the woman. What was accomplished in the way of

an adjustment of the alleged wrongs suffered by Mrs. Billings and Mr. Sparks at Tonawanda are not known but after the attorney left the city, the French house was closed up and the present address of Billings and the woman is not known by the police. Billings strenuously denied the charge of adultery.

Monument of a Century. Frederick, Md., May 20.—To commemorate the centennial anniversary of the founding of their denomination the quadrennial conference of the United Brethren Church in Christ dedicated their memorial church here with imposing services. Bishop J. W. Hot of Dayton, O., assisted. The edifice cost \$18,000.

Monument to Sir Arthur. London, May 20.—The dean and chaplain of St. Paul's cathedral have given their approval to the suggestion of friends and admirers of the late Sir Arthur Sullivan that a monument to his memory be placed in the cathedral, and an influential committee has been formed to carry out the idea.

GOLDIE

Will be Sent to Home at Delaware,

But She Will Find the Surroundings Cheerful

As Compared With the Life That Poverty Has Compelled Her to Put Up With—Notes in Court.

Goldie Sloan, the girl who was taken into custody in complaint of Mrs. Rentz, wife of the north Main street baker, will have her hearing this afternoon before Judge Miller of the Probate Court. She has manifested the desire to plead guilty of the charge of stealing and her age will entitle her to admission to the Girls' Industrial Home at Delaware. The institution will provide her with a home, something she has lacked since babyhood, and probably be the means of saving her from the ruin toward which she was rapidly traveling.

Jury Wasn't Needed. The case of Wm. West vs. Mary J. Mines was set for trial today, but the attorneys got together and settled the litigation out of court. The services of the jury were therefore not needed and the members were instructed to return Thursday morning, when the case of J. C. Smith vs. Israel Dismay is set for trial.

Board in Session. The board of revision, consisting of the commissioners, the auditor and the county surveyor, is in session today, and Delphos and Perry township are up for consideration.

A Big Class. At the Boxwell examination held at the court house Saturday, 106 students took the examination, and every township in the county was represented. The class was a large one, but it will take a week to determine how many passed a successful examination.

New Case. Anna Burgess vs. Wm. Jacobs, et al. is the only case filed in common pleas court today. The action is one in partition.

DEMOCRATIC SENATORIAL CONVENTION.

The Democrats of the 324 Senatorial District of Ohio will meet in convention at Defiance, Ohio, on

Wednesday, May 22d, 1901,

at 10 o'clock a. m., for the purpose of nominating two (2) candidates for State Senator.

The Senatorial Committee has appointed the representation of delegates at one delegate for every 100 votes and one delegate for every fraction of 50 votes or over cast for William J. Bryan for President in 1900.

Under this apportionment the several counties of the district will be entitled to the following number of delegates:

	Votes	Delegates
Allen	6,540	65
Auglaize	4,812	48
Defiance	2,798	28
Mercer	4,460	45
Paulding	2,284	23
Van Wert	3,562	36
Williams	3,049	30

Total number delegates.... 255
F. M. BASHORE, GEO. H. KOHN,
Secretary pro tem. Chairman.

The Baltimore American, the leading Republican organ of Maryland, seems to be disgusted with the dictatorial methods of the only Mark Hanna and throws the following uncompromisingly uncomplimentary bouquet at him:

"Senator Hanna is known to fame only as a consummate politician and a successful business man, and in these respects he is all that any man can claim for him; but, so far as known, his abilities end there. He has given no demonstration of statesmanship, his name attaches to no great achievement of statesmanship, and it will be impossible for Mr. Heath or any other man to label the Ohio senator a statesman and get him up before the people expecting them to believe that he is what he is tagged. And as a politician Senator Hanna has quite exhausted his mission. His dictatorial methods, his irrepressibility, the sedulous manner in which he has promoted the interests of gigantic combinations and aggregations of capital, together with other things that might be mentioned, have all combined to place him beyond the pale of possibility as a presidential candidate."

Col. James Kilbourne, who has received the unanimous endorsement of the Democratic central committee of Franklin county for governor, has formally announced himself as a candidate, and asks the support of his friends.

The Enquirer of Thursday published special dispatches from ninety-five Democratic editors in Ohio on governorship, and fifty-six of these were straight declarations in favor of Col. Kilbourne as the Democratic candidate for governor. Several of the remaining thirty-nine were in favor of Kilbourne as second choice.

Among the other candidates mentioned were A. W. Patrick, Tom L. Johnson, John L. Zimmerman, John J. Lentz and John C. Welby.

Col. Kilbourne is favored because he is known to be a man of ability, of first-class character and reputation, and he is believed to be the strongest man whom the Democrats can nominate.

The hospital for epileptics, at Gallipolis, is running into a deficiency that will reach \$20,000 for the year ending next November. This is the institution which has been the center of political jobs ever since its erection. Dr. Rutter, whose administration covered six years, was recently asked, by Governor Nash, to step down and out

In order to please the Republican politicians of Gallia county. The administration of Dr. Rutter has been in direct opposition to the desires of the powers that be and so strong was he "set in his way" that it required the combined efforts of the politicians of the state to dethrone him.]

Hubbard B. McDonald, journal clerk of the United States senate, is credited with being the ablest parliamentarian connected with that body. He is the third of his family to hold the position, his father and grandfather having preceded him. His business is to sit close to the presiding officer and keep him from falling into parliamentary pitfalls. He reports that of all the vice presidents he has coached in his twenty-five years experience Teddy Roosevelt is much the hardest to keep in line.

DEATH

Came as a Sweet Relief to the Sufferer.

Mrs. Elizabeth Bunn Died Saturday Evening and the Remains Were Taken to Jackson.

Mrs. Elizabeth Bunn, mother of Mrs. John Pyle, died at the latter's home, corner of Park avenue and High street, Saturday evening, after a long period of suffering. Disease had made gradual encroachments on the mind of the deceased, and while a great charge, no inducements could prevail upon the family to have her treated anywhere but at home, where she received the most kind and loving care. The last three weeks of her life she was confined to her bed, and congestion of the brain finally developed. Funeral services were held at 4 o'clock yesterday afternoon at the house, conducted by Rev. A. D. Wolfinger, of the Calvary Reformed church, and the remains, accompanied by Mr. Pyle and Miss Anna Dismar, were taken to Mrs. Bunn's old home in Jackson for interment, this morning. Mrs. Pyle's condition is such that she was unable to go.

STRANGE

Find Made by a Van Wert County Farmer.

Section of an Iron Safe and Thirteen Silver Dollars Picked up in the Woods.

A story related in local police circles. Saturday, by a well-known resident of Ridge township is a puzzle to the officers, says the Van Wert Bulletin. Greenberry Wright, a farmer, told of seeing a camp fire in a woods near the Pennsylvania railroad several miles east of town. The fire was lighted three or four nights, but did not, at the time, create more than passing interest because it was supposed to have been built by tramps. On his way to town Mr. Wright cast a curious eye in the direction of the spot where the fire had burned. He saw something bright on the ground and decided to make an investigation. He drove to the place and found a large chunk of iron resembling very much certain parts of the ordinary fire-proof safe. While looking for other pieces of the strong box he discovered thirteen silver dollars on the ground. He pocketed the money and set about to solve the mystery. Later a horse and carriage was driven there. A heavy built man of nervous temperament alighted, searched the ground as if in quest of missing treasure, returned to the carriage apparently disappointed, and drove away. Mr. Wright still has the money. The police are looking for additional evidence to connect the missing links of the story.

The Rebekahs

And Solar Lodge of Odd Fellows

Attend Special Services Conducted by Rev. W. H. Leatherman.

Ray Jacobs, Son of Andrew Jacobs, Seriously Injured by Falling Out of a Tree—Other Newsy Notes.

Yesterday morning Solar Lodge of Odd Fellows, also, Stella lodge of Rebekahs attended in a body, the morning services at Grace M. E. church. They were there in response to the invitation of the pastor, Rev. W. H. Leatherman, who upon the occasion, delivered a specially prepared sermon. His subject was "From Jerusalem to Jericho." The theme was admirably discussed, the dedications being applicable to the fraternal workings of odd-fellowism. Some safe counsel was wisely given, the sermon being of a complimentary as well as edifying and beneficial nature was received with approbation. The lodges are very grateful to Rev. Leatherman for his friendly manifestation of interest. During the services special music of a high order was rendered. In the evening another large audience assembled at the church to hear Mr. Leatherman's address to young men. He spoke interestingly upon vital matters of momentous importance to the young men of today. His words of encouragement and advice will undoubtedly be treasured and profited by all who heard them. At this service the young men's choral rendered creditably some enjoyable music.

A CARD.

For the better information of the public, the management desires to announce that

Mr. George Clarke

is the celebrated actor who has been so long at Daly's Theatre, New York City and London, and whose many metropolitan successes in these theatres stamped him the greatest actor of the period in Shakespearean and high class comedy. And it is with the view of impressing the public who Mr. Clarke is and his superior rank in the dramatic art that this card is published, so that all admirers of the best in dramatic art may now have an opportunity of seeing the dean of his profession, Richard Carew in "When We Were Twenty-One."
